Active noise cancellation function(ANC)

When there is too much noise in surroundings, Switch on the ANC key, then 90% of the low frequency noise will be removed, which enables you to listen to the high quality music without the disturbing from the outside.

The headphone is on or off status

- 1, connect the 3.5mm audio wire to the headphone and audio player.
- 2, you can adjust volume bottom of the audio player or the mobile phone to reach right volume to listen music.

4

3, Pairing (One headphone support connecting 2 phone devices)

Pairing with one phone or other device

Make sure the headphone is power off.

Press and hold the multifunctional button for 5 seconds until the LED blinks RED and BLUE alternately, search for the headset from your phone, once "H01A" is found in the searching list, please follow the indicated steps and enter pin code "0000" to pair. (Some phones don't request the pin code) After that, connect the headphone to your phone and your headphone is ready to use.

Pairing with two phones or other devices at the same time

From Off, press and hold the multifunctional button for 5 seconds until the LED blinks RED and BLUE alternately and establish connection with the first phone then re-do the procedure to connect with the second one. After that, restart the headphone, it will automatically connect with the second phone. Then short press the "volume +" and "volume -" simultaneously to enter the dual connection status, Select the headphone "H01A" from the list of founding devices on the first smartphone to establish dual connection. In this status, you may answer either of the phone call by simply press the play button.

4, Sound quality with apt-X® code

Featuring the apt-X code, the headsets can connect wirelessly to any apt-X® enabled devices, vastly improves the quality of BT streaming, delivering CD-quality sound.
